Kansas Medical Assistance Program - Notes - Fiscal Year 2026

NOTES ON CHANGES TO THE MEDICAL ASSISTANCE REPORT

All Dates

MMIS uses a weekly payment cycle. As a result the number of weeks paid during the month affects the expenditures and consumer counts for the month. Not all reports in MMIS are run at the same time. Therefore, there may be variations in the numbers in a given month in this report when compared with other MMIS/DAI reports.

Some Category of Service Expenditures not processed through the MMIS system are now included in the Total Expenditure column.

Consumer counts for populations and services are based on payments. Counts for these two groups can fluctuate. Every beneficiary enrolled in KanCare is counted once within a population since a payment is made for them monthly regardless of whether they had a service or not. For those beneficiaries not enrolled in KanCare who are receiving fee-for-service, counts are based on when the provider submits claims for payment. Providers might hold payments for a certain amount of time and then submit, the consumer counts for that month within a population or service may be higher than the prior month.

The information contained within this report represents eligibility & payments made for the month. The data is not refreshed each month for the prior months.
